Impressed!! My first experience with this company came from speaking with Amanda over the phone. She gave me such a positive experience that it would be a sin not to write a 5 star review! She was kind, informative, amazing customer service, and I felt she genuinely is proud of her company! Due to her confidence in the company, I felt at ease making the decision to choose this auto repair company. It was a joy speaking with her and look forward in referring others to you as well! Thank you!!

Company was awesome. They assisted me in contacting my insurance and we were able to get the claim filed over the phone and they were out next morning first thing to change my windshield. Customer service was great. Employees that came out were fast, knowledgeable, and friendly. Hoping I never have to get auto glass replaced again but if I do I know exactly who I will use. Premiere Auto Glass!

Can I say professional or even empathetic these two men Scott and Patrick are most professional and easy to speak to gentleman. I would highly recommend them for any repairs. I can't say thank you enough to these to men. Wish I had more than 5 stars to give them!

I had a windshield replaced where I volunteer. Quentin came and called me as he was on his way to me. He was great, very accommodating, professional, personable, and efficient. Top-notch customer service. In addition the person I spoke with to make arrangements was very help full with contacting my insurance company to get the authorization. It might not be for a while, however, I will call them for any future car glass needs.

The people and the service was great! And it was totally wild there. Instead of sitting in an uncomfortable waiting room, they have a built in movie theater with the most comfortable chairs. They are so big and soft, it's easy to fall asleep in. I would recommend this place to everyone I know.

I asked for a quote through Premiere's website and was contacted via email and telephone within a couple of hours. Once the right windshield was determined, I was quoted a price that was much less than other companies. The replacement was scheduled for the very next day. They came to my office at a time convenient for me. The technician was professional and did the job quickly and well. I would recommend this company to anyone!

I had a couple vehicles that had damage from the 101 freeway construction. They came out when they said they would and knocked it out quickly so I could get back to my busy day.
